To facilitate learning, the course will follow thematically with the required text, which divides the material into three components: **Physical, Cultural, and Economic Geography.**

The objectives of the course are to provide the student with an understanding of: (1) the variety of physical environments covering Latin America, (2) the cultural, social, and historic factors that influenced the creation of Latin American cultural diversity, and (3) the manner in which economic, social, and environmental processes coalesce to shape different geographies of development throughout the diverse regions of Latin America.

The writing will be evaluated on content, organization and coherence, argument and support, style and mechanics. Evaluations will be on individual work and the evaluated work will be returned to you before the last day of class. To receive writing credit you must receive a minimum grade of C (2.0) and satisfactory completion of the writing component, according to the rubric that follows.

RUBRIC FOR EVALUATION: “Satisfactory” and “unsatisfactory” indicate ranges for grades on assignments.

	SATISFACTORY (Y)	UNSATISFACTORY (N)
CONTENT	Papers exhibit at least some evidence of ideas that respond to the topic with complexity, critically evaluating and synthesizing sources, and provide at least an adequate discussion with basic understanding of sources.	Papers either include a central idea(s) that is unclear or off- topic or provide only minimal or inadequate discussion of ideas. Papers may also lack sufficient or appropriate sources.
ORGANIZATION AND COHERENCE	Documents and paragraphs exhibit at least some identifiable structure for topics, including a clear thesis statement but may require readers to work to follow progression of ideas.	Documents and paragraphs lack clearly identifiable organization, may lack any coherent sense of logic in associating and organizing ideas, and may also lack transitions and coherence to guide the reader.
ARGUMENT AND SUPPORT	Documents use persuasive and confident presentation of ideas, strongly supported with evidence. At the weak end of the Satisfactory range, documents may provide only generalized discussion of ideas or may	Documents make only weak generalizations, providing little or no support, as in summaries or narratives that fail to provide critical analysis.

	provide adequate discussion but rely on weak support for arguments.	
STYLE	Documents use a writing style with word choice appropriate to the context, genre, and discipline. Sentences should display complexity and logical sentence structure. At a minimum, documents will display a less precise use of vocabulary and an uneven use of sentence structure or a writing style that occasionally veers away from word choice or tone appropriate to the context, genre, and discipline.	Documents rely on word usage that is inappropriate for the context, genre, or discipline. Sentences may be overly long or short with awkward construction. Documents may also use words incorrectly.
MECHANICS	Papers will feature correct or error-free presentation of ideas. At the weak end of the Satisfactory range, papers may contain some spelling, punctuation, or grammatical errors that remain unobtrusive so they do not muddy the paper's argument or points.	Papers contain so many mechanical or grammatical errors that they impede the reader's understanding or severely undermine the writer's credibility.
