

COURSE SYLLABUS

Instructor:	Dr. Kevin Ash	Term:	Fall 2021
Office:	TUR 3128	Class Meeting Days:	Monday
Phone:	352-294-6956	Class Meeting Hours:	1:55 pm – 4:55 pm
Email:	kash78@ufl.edu	Class Location:	TUR 3006
Office Hours:	Tues, Wed, Fri 10-11 am, or by appointment	Course Credits:	3 hours

I. Course Overview

In this course, students will learn fundamental concepts and widely used methodologies for assessment of hazard vulnerability using geospatial data and analysis techniques. They will benefit from assignments using ArcGIS Pro (primarily) and other geospatial and quantitative analysis software. This course will not use a simple hazard-by-hazard approach, but will integrate perspectives from the physical and social sciences to identify and describe risk and vulnerability with empirical data and real-world examples. This unique course will provide critical training and experience for students interested in hazards geography, GIS, emergency management, risk communication, or urban planning.

The course begins by reviewing key concepts relevant for geospatial analysis of risk and vulnerability such as the definitions of these terms and practical issues such as geographic scale and the modifiable areal and temporal unit problems. Then, we will investigate how different types of hazards are represented spatially and how these differences make multi-hazard mapping and analysis challenging. We will then discuss the advantages and pitfalls of using casualty and economic loss datasets, before introducing students to the wide array of socioeconomic datasets frequently used in social vulnerability analyses. Students will learn several different approaches and methodologies for social vulnerability mapping and analysis, and will learn how physical (risk) and social vulnerability analyses can be integrated into a single quantitative assessment. Students will also be exposed to participatory mapping approaches for risk and vulnerability.

NOTE: This course is co-listed with GIS 6325 which is a graduate course. While the two courses will meet together and complete similar assignments and exams, undergraduate and graduate students will be evaluated on different bases. Graduate students will be required to contribute more frequently in reading discussions, complete a longer and more rigorous final project paper, deliver a longer and more comprehensive final project presentation, and graduate students will not be able to consult their notes during the exams.

II. Course Content Objectives

By the end of the course, students will:

- Discover how the concepts of risk and vulnerability are operationalized for geospatial analyses.
- Demonstrate understanding of how risk and vulnerability indices are constructed and mapped using a GIS and how the indices and maps should be interpreted
- Identify and use appropriate geospatial physical and socioeconomic datasets in risk and vulnerability analyses
- Compare and contrast different geospatial analytic methodologies used in risk and vulnerability analyses
- Apply basic and advanced geographic and geostatistical concepts in the context of disaster risk reduction efforts

III. Student Learning Outcomes

Through the course assignments and exams, students will learn to:

- Define the terms risk and vulnerability and operationalize these concepts with empirical spatial data
- Perform mapping and assessment of physical hazard risks associated with a variety of hazard types using GIS and geospatial analysis techniques
- Understand how the modifiable areal and temporal unit problems, as well as different data smoothing techniques, can influence conclusions about risk and vulnerability in quantitative and geospatial analysis
- Work with data that contain margins of error and visualize uncertainty in maps
- Download, combine, and map secondary socioeconomic data in a social vulnerability index
- Analyze and map data using multivariate statistics
- Map social and physical data using dasymetric techniques
- Combine and map physical hazard and socioeconomic data for a comprehensive risk and vulnerability analysis
- Communicate analysis findings in written, verbal, cartographic, and graphical formats

IV. Materials and Supplies: Computer

This course will be held in TUR 3006 for the Fall 2021 semester. Students must provide their own computer on which to participate in discussions on Canvas prior to class, work on GIS assignments during and outside of class, and take exams via Canvas. Any required software (such as ArcGIS Pro) will be available to students through UF Apps at <https://info.apps.ufl.edu> or through student licenses provided by the instructor.

V. Required Texts and Useful Online Resources

There is no required textbook for this course. The instructor will assign readings on a weekly basis and these will be available via Canvas. Citations for the required readings are provided at the end of this document.

VI. Course Format, Activities, and Basis for Evaluation

The class will meet once per week for a three hour time block on Mondays from 1:55 pm to 4:55 pm. The three hour period will be a mix of lecture, discussion of assigned readings, and time to work on each week's GIS assignment. NOTE: The instructor will give the lectures live in TUR 3006 but will also record these lectures using Zoom and make them available via Canvas to all students in the class for study & review purposes only; these recordings are not to be distributed publicly or made available to anyone outside the course without the written permission of the instructor. To clarify: this is not a HyFlex course. Students are expected to attend class in TUR 3006 unless they have reasons for absence as in a typical semester.

The camera will remain on the instructor during lecture recordings. Students are still encouraged to ask questions during the lectures. The best method for doing so is to log in to Zoom with cameras and microphones off on a laptop computer and pose questions using the chat window to avoid being heard or seen on the recordings. The reason for recording lectures is to provide students the opportunity to re-watch lectures to better learn the material in the course, as there is no textbook for this course.

Regarding the risk of the spread of COVID-19 and variants: UF expects students, faculty, and staff to limit exposure and spread of COVID-19 on campus within the current guidelines in which we are operating. This includes an expectation of wearing masks in the building and during class, encouragement to get vaccinated to reduce likelihood of severe health impacts of COVID-19, and reminders to consider social distancing in the classroom, where possible. These policies are subject to change according to university and government guidelines.

Evaluation and Grading

Class Participation: Class participation will be evaluated based on two components. The first is attendance which will count for 5% of the final grade. Students are expected to attend class for each of the 14 class periods during the semester. Students may be excused from absences with appropriate documentation according to the university policy (more information provided in Section IX below). The other 15% of class participation will be discussion of the weekly readings in written format on Canvas and verbally during class. Students will be required to post their own summaries and critiques of the papers online and discuss the papers further during class periods. An evaluation rubric is provided below.

Rubric for Evaluation: Online Readings Summaries/Critiques

Task: Write a 300-500 word summary and critique of the weekly assigned readings and submit it via Canvas prior to class. Consult the rubric below to make sure you include all required elements to receive full credit.

(Adapted from two sources: Solan & Linardopoulos 2011, http://jolt.merlot.org/vol7no4/linardopoulos_1211.htm; Reflection/Discussion Critique Rubric, <http://www.rcampus.com/rubricshowc.cfm?sp=yes&code=D97AAC&>.)

Evaluation Category	Standards for Excellent Work	Points	Instructor Comments
Summary of Key Concepts	<ul style="list-style-type: none"> -Demonstrate comprehension of key concepts from readings -Recognize & define key concepts in summary -Use terms & concepts appropriately in context 	/4	
Evaluation & Synthesis of Key Concepts	<ul style="list-style-type: none"> -Construct generalized judgments and/or arguments about key concepts in readings -Support arguments using specific instances or examples from the readings 	/6	
Critique Strategies	<ul style="list-style-type: none"> -Employ one or more critique strategies such as: <ul style="list-style-type: none"> ▪ Compare/contrast between readings ▪ Deconstruction of language or logic ▪ Identification of methodological shortcomings 	/6	
Writing & Communication Proficiency	<ul style="list-style-type: none"> -Organize writing with clear structure: <ul style="list-style-type: none"> ▪ Introduction ▪ Body ▪ Conclusion -Avoid spelling, grammar, syntax, punctuation, or other writing errors 	/4	

GIS Assignments: There will be 9 GIS assignments which will amount to 40% of the final grade. GIS assignments will typically be due one week after they are assigned; exceptions to this are noted in the course schedule.

Exams: In total, the two exams will account for 20% of the final grade, 10% each for the Midterm and Final exams. Both exams will be two hours in duration. They will be written and will cover concepts the students are learning in the course, using short answer and essay questions. Undergraduate students will be permitted to consult written notes during the exams.

Final Project: For the final project, students will use one or more of the GIS methods for analysis of hazard risk and vulnerability covered in the course to perform their own analysis for a location and hazard context of their choosing. The final project paper should be about 2000 words in length and include citations, data tables, and maps and graphs as appropriate. The class project will be worth 20% of the total grade. The majority of the points (15 out of the 20 percentage points) will be related to the paper

which each student will write and turn in by December 13th. The remaining 5 percentage points will be for an 8 minute presentation given on December 6th. Students will write a short project proposal that will be due Oct 25th and will receive constructive feedback about the proposed research. More detailed instructions about the final project will be provided to students via Canvas and during class meetings.

Assignments and Exams	Percent of Final Grade
Class Participation	20%
GIS Assignments	40%
Final Project	20%
Exam #1: Midterm	10%
Exam #2: Final	10%

Grading Scale (%)	
92.5 – 100	A
89.5 – 92.4	A-
86.5 – 89.4	B+
82.5 – 86.4	B
79.5 – 82.4	B-
76.5 – 79.4	C+
72.5 – 76.4	C
69.5 – 72.5	C-
66.5 – 69.4	D+
62.5 – 66.4	D
59.5 – 62.4	D-
< 59.5	E

VII. **Important Dates to Remember:** The due dates below are tentative and can be changed at the discretion of the instructor.

Drop/Add Ends:	Fri, Aug 27 th 2021
Labor Day Holiday	Mon, Sep 6 th 2021
Midterm Exam	Mon, Oct 18th 2021
Project Proposal Due	Mon, Oct 25th 2021
Thanksgiving Holiday	Wed-Fri, Nov 24-26 th 2021
Reading Days	Thurs-Fri, Dec 9-10 th 2021
Final Project Due	Mon, Dec 13th 2021
Final Exam	Thurs, Dec 16th 2021
Fall 2021 Grades Available on https://one.uf.edu/dashboard/	Wed, Dec 22 nd 2021

VIII. **Weekly Topic Schedule, Assignments, and Exams (Schedule is provisional and subject to change)**

Date	Day	Class Topics & Assignments	Read Before Class
Aug 23	Mon	Course Introduction; Assignment #1	None
Aug 30	Mon	Physical Hazard Risk Mapping; Assignment #2; #1 due	Elsner et al. 2012; Deng et al. 2016
Sep 6	Mon	Labor Day; NO CLASS	
Sep 13	Mon	Multi-Hazard Risk Mapping; Assignment #3; #2 due	Buck and Summers 2020; Iglesias et al. 2021
Sep 20	Mon	Geospatial Analysis of Damage & Casualties; Assignment #4; #3 due	Borden & Cutter 2008; Hahn et al. 2017

Sep 27	Mon	Demographic Geospatial Data Sources & Visualizing Uncertainty; Assignment #5; #4 due	Wong & Sun 2013; Folch et al. 2016
Oct 4	Mon	GIS-Based Social Vulnerability Analysis; Assignment #6; #5 due	Cutter et al. 2003; Flanagan et al. 2011
Oct 11	Mon	Recent Debates about Social Vulnerability Indices; Introduction & Discussion of Final Project; Project Proposal Assignment; #6 due	Rufat et al. 2019; Spielman et al. 2020; Flanagan et al. 2021
Oct 18	Mon	Midterm Exam; Work on Project Proposal (due Oct 25)	
Oct 25	Mon	Dasymetric Mapping & Social Vulnerability Analysis; Assignment #7; Project Proposal due	Nelson et al. 2015; Tate et al. 2021
Nov 1	Mon	Clustering Methods & Social Vulnerability Analysis; Assignment #8; #7 due	Rufat 2013; Wood et al. 2015
Nov 8	Mon	Risk/Vulnerability Integrated Analysis; Assignment #9; #8 due	Koks et al. 2015; Guillard-Goncalves & Zezere 2018
Nov 15	Mon	GIS-Based Disaster Resilience Index, #9 due, Work on final project	Cutter and Derakhshan 2018; Al Rifat and Liu 2020
Nov 22	Mon	No lecture or discussion this week, work on final project & readings for Nov 29	
Nov 29	Mon	Vulnerability Analysis Using Participatory & Qualitative GIS Methods, Work on final project	Yusuf et al. 2018; Sullivan-Wiley et al. 2019; Brandt et al. 2020
Dec 6	Mon	Student presentations on final project; Work on final project papers	None
Dec 13	Mon	Final Project Papers Due	
Dec 16	Thurs	***Final Exam: 12:30 pm to 2:30 pm in TUR 3006***	

IX. Course Policies: Attendance, Make-Ups, and Grades

Attendance: Students are expected to attend each class period. Absences can be excused with proper documentation according to university policy. Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found at: <https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>.

Make-Up Exams and Assignments: Requirements for make-up exams, assignments, and other work in this course are consistent with university policies that can be found at <https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/>.

Examination Policies and Reading Days: Course policies are consistent with University policies on during-term exams, final exams, reading days, and make-up exams. Students must notify the instructor as soon as possible in case of absence during an exam and provide documentation as to the reason for the absence. If deemed an excused absence, the student will be permitted a reasonable amount of time to make up the missed exam. More details can be found at <https://catalog.ufl.edu/UGRD/academic-regulations/examination-policies-reading-days/>.

Grade Dissemination: You can access your scores at any time using the Grade function in Canvas. The instructor will post grades within about one week of the due date of each assignment and the mid-term exam.

Grading Policies for Assigning Grade Points: Information on current UF grading policies for assigning grade points may be found at <https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx>.

Grades of "Incomplete": The current university policy concerning incomplete grades will be followed in this course. An incomplete grade may be assigned at the discretion of the instructor as an interim grade for a course in which you have completed a major portion of the course with a passing grade, been unable to complete course requirements before the end

of the term because of extenuating circumstances, and obtained agreement from the instructor and arranged for resolution of the incomplete grade. Instructors are not required to assign incomplete grades.

X. Course Policies: Technology and Media

Email: Each of you has a UF email address. It is vital that you maintain an active UF email account and that you **check it often**. This tentative syllabus is **subject to change**, and any changes will be transmitted to you via your UF email account and Canvas (see below). Students should email the instructor if they have questions about any of the lectures, readings, assignments, or exams. You should expect a response within about 24 hours during weekdays. On holidays or weekends, expect a response on the next business day. The instructor will reasonably expect similar time frames for responses to emails sent to students.

Canvas: Course materials such as lectures, readings, the syllabus, and assignment instructions will be available through Canvas (<https://elearning.ufl.edu>). You will also find all due dates and grades on Canvas. Students must activate their UF GatorLink account in order to use Canvas. If you need help learning how to perform various tasks related to this course or other courses that utilize Canvas, please consult the above webpage. You may also contact the UF Computing Help Desk at (352) 392-HELP(4357) or helpdesk@ufl.edu.

Online Course Evaluation: Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing online evaluations via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at <https://gatorevals.aa.ufl.edu/students/>. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

Recordings and Notes: It is not permitted to sell or distribute notes or recordings from this class without written consent of the instructor. Nor are students permitted to disseminate recordings of the instructor lecturing or post copies of assignments or exams on the internet.

XI. Course Policies: Student Expectations

Disabilities Statement:

Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565, www.dso.ufl.edu/drc/) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.

Academic Honesty & Conduct Policy: UF students are bound by The Honor Pledge which states, "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code." On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: "On my honor, I have neither given nor received unauthorized aid in doing this assignment." The Honor code (sccr.dso.ufl/process/student-conduct-code/) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor.

XII. Campus Resources for Students:

Academic Resources

E-learning technical support: Contact the [UF Computing Help Desk](mailto:helpdesk@ufl.edu) at 352-392-4357 or via email at helpdesk@ufl.edu.

Career Connections Center: Reitz Union Suite 1300, 352-392-1601. Career assistance and counseling services at career.ufl.edu/.

Library Support: <http://cms.uflib.ufl.edu/ask>. Various ways to receive assistance with respect to using the libraries or finding resources.

Teaching Center: Broward Hall, 352-392-2010 or to make an appointment 352-392-6420. General study skills and tutoring. <http://teachingcenter.ufl.edu/>

Writing Studio: 2215 Turlington Hall, 352-846-1138. Help brainstorming, formatting, and writing papers. <http://writing.ufl.edu/writing-studio/>

Student Complaints On-Campus: sccr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/

On-Line Students Complaints: distance.ufl.edu/student-complaint-process/

Health and Wellness Resources

U Matter, We Care: If you or someone you know is in distress, please contact umatter@ufl.edu, 352-392-1575, or visit umatter.ufl.edu/ to refer or report a concern and a team member will reach out to the student in distress.

Counseling and Wellness Center: Visit <https://counseling.ufl.edu/> or call 352-392-1575 for information on crisis services as well as non-crisis services.

Student Health Care Center: Call 352-392-1161 for 24/7 information to help you find the care you need, or visit <https://shcc.ufl.edu/>.

University Police Department: Visit police.ufl.edu/ or call 352-392-1111 (or 9-1-1 for emergencies).

UF Health Shands Emergency Room / Trauma Center: For immediate medical care call 352-733-0111 or go to the emergency room at 1515 SW Archer Road, Gainesville, FL 32608; ufhealth.org/emergency-room-trauma-center.

COVID-19: If you are experiencing COVID-19 symptoms, please use the UF Health screening system and follow the instructions on whether you are able to attend class. You will be given a reasonable amount of time to make up work if deadlines are missed due to COVID-19 related health problems. Please consult the following links for more information:

- CDC Guidance on Coronavirus Symptoms: <https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html>
- UF Health COVID-19 Exposure & Symptoms Quick Reference Guide: <https://coronavirus.ufhealth.org/screen-test-protect/covid-19-exposure-and-symptoms-who-do-i-call-if/>
- UF Guidance for Return to Campus for Fall 2021 Semester: <https://coronavirus.ufl.edu/health-guidance/>
