EXPERIENCE

2022 – Present | PhD Student

Department of Geography, University of Florida | Gainesville, FL, USA

- Research Area: Livestock trade networks in West Africa
- Course Developer and Instructor: Hungry Planet: Geography of Crops
- Teaching Assistant: Latin American Geography

2017 – 2022 | Project & Research Assistant

Feed the Future Innovation Lab for Livestock Systems, University of Florida | Gainesville, FL, USA

- Collaborated on research and project activities with the Cross-Cutting Theme Leads for Gender & Youth and Enabling Environment, as well as with the Monitoring and Evaluation Specialist.
- Contributed to gender integration in the "EQUIP–Strengthening smallholder livestock systems for the future" research project on livestock feed funded by the Bill & Melinda Gates Foundation.
- Responsible for reviewing dataset submissions to ensure compliance with guidelines for submissions to USAID's Data Development Library.
- Assisted with project management activities including reporting compliance, event planning and logistics, and development of communications materials.

2017 | Program Assistant

Integrating Gender and Nutrition within Agricultural Extension Services (INGENAES) Project,
University of Florida | Gainesville, FL, USA

- Conducted research in Nepal on nutrition-sensitive agriculture, multi-sectoral collaboration for nutrition, and women's empowerment.
- Assisted with writing and editing of newsletter, reports, and other INGENAES products.
- Supported planning and logistics for two workshops and a symposium in Nepal.

2016 – 2017 | Research Assistant

Catholic Relief Services Consultancy | Gainesville, FL, USA

- Conducted a qualitative analysis to assess the gender integration of 20 CRS projects.
- Developed webinar to present findings to CRS project staff.
